

## Executive Summary

A declaration of joint working between\*  
Amicus Therapeutics UK and Royal Free London NHS Foundation Trust

Royal Free London NHS Foundation Trust and Amicus Therapeutics are engaged in a joint working project called:

### **Fabry Online Education Programme**

This project will run for 22 months after the commencement date February 2022 and both parties have contributed resources for this initiative.

#### **Expected outcome:**

Improved experience of the healthcare system and outcomes for patients with Fabry disease through enhanced healthcare professional knowledge and understanding of Fabry disease.

#### **Key Deliverables**

- Emotional mapping of the current route to diagnosis for Fabry patients to inform co-designed baseline patient experience survey
- A custom Learning Management System (LMS), that will enable users to access learning resources, pre and post registration
- Development of eLearning content available via the LMS
- Project evaluation to measure impact and inform future content development

**\*To be approved by both parties & hosted on Amicus / NHS websites before project commences**

**This proposal covers Phase 1 only**
